

# WF-10 Dino-Lite CONNECT

WiFi Streamer connects Dino-Lite to iOS or Android mobile devices

## PRODUCT OVERVIEW

### LIFE STREAMING

Wirelessly transmit a live video image from the Dino-Lite to your mobile device

### CAPTURE IMAGES & VIDEO

Use the iPhone/iPad app to capture images and video

### BROADCAST UP TO 15M

Broadcast up to 15m (50ft) and to multiple devices

### WIRELESS MICROSCOPE SOLUTION

Ideal for field work, classrooms, and presentations. The WiFi adapter enables live streaming from a compatible Dino-Lite to a compatible mobile device. Broadcast up to 15m and stream to multiple devices simultaneously.

### WIRELESS MICROSCOPE SOLUTION

Use the WiFi adapter with most Dino-Lite USB models and with iOS, Android, or other mobile devices.

## PRODUCT SUMMARY

The WF-10 Dino-Lite CONNECT is a WiFi streamer designed for displaying Dino-Lite's live image on a mobile device such as iPhone, iPad, Android phone, or Android tablet. By connecting the Dino-Lite to the USB port, the WF-10 transmits smooth and high quality live image through the WiFi to the connected mobile devices. The WF-10 can be powered by the power adapter for stationary use and the battery will be charged simultaneously for the next mission. The free APP DinoConnect for using with WF-10 can be downloaded from App Store or Google Play.

## PRODUCT SPECIFICATIONS

Product Name	WF-10 Dino-Lite CONNECT
Standards	IEEE 802.11 b/g/n
Battery	1880mAh Li-Polymer Rechargeable Battery
Power Consumption	2.5W
Security	WPA2-PSK encryption
Input	USB 2.0
Video Output	Up to 1600 x 1200
Available Ports	USB 2.0; Mini-USB for charging
APP	DinoConnect
Operation Temp	0 ~ 40° C
Storage Temp	-10 ~ 70° C
Dimensions	5.5cm (L) x 12.1cm (W) x 1.6cm (H)
Weight	112g (with battery)
Certification	FCC, CE
